

Websites/Newsletter Report 2026

Dr Ian Jackson

Our website www.theiaas.net and www.ambulatorysurgery.org are hosted by Ionos which was founded in Germany in 1988. If interested, you can read a review here <https://www.ukwebhostreview.com/reviews/ionos/>

Both websites are registered secure, so we have earned the Site Secure Lock logo. The website hosting includes regular scanning and backup of our website for maximal security against hacking.

Costs

Hosting package cost £580 (€667.81) for 2025. This has increased – I would move to cheaper providers but as websites are being taken over, I have stayed with Ionos.

The hosting of videos is on Vimeo which has a cost of £16 per month – not charged to IAAS.

Newsletter

Sadly, we have not been good at sending Newsletter out! Last one was June 2025. This really needs either an Editor to complete or a subgroup to work on. I assume that this will be taken on by Inspira Network so I will send a file with our contacts list.

We currently send the Newsletter to around 2900 people.
